PINE KNOT

AS THESE DOORS CLOSE BEHIND US ...

. . . we seniors are faced with the abrupt realization that, for the first time in our lives, we are truly in control of our own destiny . . . that now we are going to become a part of this world which we have inherited. What we do with "our chance in the chamber of days" can only be determined by ourselves. If we are to make our stay here successful, we must begin our work the minute we walk out of these doors. Our world is torn by war, poverty, starvation, persecution, and hatred; yet this same world is filled with infinite promise for each of us if we can learn to cope with and overcome these problems that have plagued man since the beginning of time. Surely we have the hope that we shall be the generation to find the solution. As one of our popular songs says:

When the moon is in the seventh house
And Jupiter aligns with Mars,
Then peace will guide the planets,
And love will steer the stars.
This is the dawning of the Age of Aquarius.

In this time of the unrest of many of our fellow young adults, the outcry and the need for reform is great. What we must learn is not merely to be discontented and to show our discontent through unproductive measures, but rather to find the way in which we can participate to overcome this situation. The problems have been hotly debated for centuries. The solution still lies within each individual. A poem from the 19th century fits now as if it had been written for our going forth:

To each man is given a marble to carve for the wall,
A stone that is needed to heighten the beauty of all.
And only his soul has the magic to give it a grace,
And only his hands have the cunning to put it in place.

We are given one hour to parley and struggle with Fate,
Our wild hearts filled with the dream, our brains with the high debate.
It is given to look on life once, and once only to die:
One testing, and then at a sign we go out of this sky.

Yes, the task that is given to each man no other can do:
So your work is awaiting: it has waited through ages for you.
And now you appear; and the Hushed Ones are turning their gaze
To see what you do with your chance in the chamber of days.

Astrology means "knowledge of the stars." People since the dawn of time have looked to the heavens for knowledge and the capability of foretelling events. We have heard much about this period being a "New Age." As the song goes, "This is the dawning of the Age of Aquarius." So we have looked to the stars to learn things about our seniors and their futures.

Among the many constellations that stud the night sky, there are twelve which form a great belt around the earth. Each of these represents a month in the astrological year that runs from March 21 on through the succeeding March 20. These are called the signs of the zodiac.

Each month, the Sun enters a new sign, and all persons born during that period have it as their birth sign. According to astrology, there are twelve types of persons thus represented, as all individuals born under a given sign have its inherent traits.

The signs and the dates are as follows:
Aries or the Ram—March 21 through April 19
Taurus or the Bull—April 20 through May 19
Gemini or the Twins—May 20 through June 20
Cancer or the Crab—June 21 through July 22
Leo or the Lion—July 23 through August 21
Virgo or the Virgin—August 22 through September 22
Libra or the Scales—September 23 through October 22
Scorpio or the Scorpion—October 23 through November 21
Sagittarius or the Bowman—November 22 through December 21
Capricorn or the Goat—December 22 through January 20
Aquarius or the Water Carrier—January 21 through February 19
Pisces or the Fish—February 20 through March 20.
Characteristics from the seniors zodiac signs have been placed beneath their names.

Prophecy

Through the ages man has used almost any means at his disposal to attempt to see into the future. In Aristotle's time, oracles who lived on high windswept mounts were consulted, but to no avail, for Greece fell to the advancing Romans. The Romans felt partial to sorcerers and Eastern wizards, who graced the courts of the Caesars and other up and ups. However, we all know what happened to beautiful downtown Rome when the Huns came to visit, regardless of what contacts from the beyond they may have had. Merlin and Nostradamus in the Middle Ages came next, and they are only remembered for their odd pointy hats and predictions of the Judgment Day for 1523. Thankfully, we can attest to the inaccuracies of their prophecy. Quite a dismal record when all is considered, huh? Must we be afraid of certain doom just for the lack of a decent soothsayer?

This is not the case. Through great personal danger and even greater expense, a certain student from Askov High has made a pilgrimage to Bruno Mountain where he has informed me that he has made contacts with the greatest precognitor and astrologer in the entire world! This great caster of fortunes has consented to chart the course, for better or worse, of the senior class of 1970! You, the reader, must understand that revealing any of what I am to tell you will cost you greatly and will cause a curse to fall upon everyone you hold dear, so read on, but BEWARE!

We are informed that through a conjunction of Saturn in the House of the Rising Sun, only 10% of the senior class will see their graduation. Gadzooks! What can this mean? Ahhhhh. The first of the personal charts is before me. I see that, because of the falling of Scorpio in the Eternal Triune, Sandy Sahlen and . . . oh, it's getting hazy . . . Virgie Lund will become prospectors for natural hot air pockets near the site of what is today the Faculty Lounge. What a coincidence! More is coming through now . . . he says that due to a slight wrinkle in the Fifth Sector of Taurus, David Tillman and Tim Johnson will become midget wrestlers and that Janice Koecher will start a flourishing roller derby emporium, all in Askov around the year 1986. Could this be?

The fantastic precognitor also says that because of the soon-coming use of roller skates for transportation George Frederiksen will invent the Scuzmobile, capable of holding twenty passengers on ONE SKATE! Atta boy, George!

Due to winds on Bruno Mountain, the rest is hazy . . . however, I see that a huge boilover in the

Andromeda system will enable John Zebrasky, Kevin Stottrup, and Ed Shank to complete their long-felt desires to become members of the Askov school board and turn the gymnasium into The Bubble Gum Haven, where the sweet refrains of bubble gum music by the Monkees, Cowsills, and 1910 Fruit Gum Company (not to mention the Archies) will reverberate every night causing instant insanity to all who hear!!! Ah, tis a sad thing, this. Yet the man from Bruno Mountain informs me he has good news, too. He says . . . I don't believe it, it can't . . . oh, well, owing to the crossing of Neptune and Mars in a perfect triangle, Bill Tvedt will teach flowers to talk and will tour the country with them and Vic the Wonder Bear of local fame. Can this be true?

Belthazar! Another prediction has come through. The fortune teller says that before May 25, 1970, Terry Nelson will go berserk in Chemistry II and turn Mr. Marnich into a pile of seething protoplasm with a devious weapon he is presently concocting in private. Beware of what is to come, Mr. Marnich!!!!

Aha! Mareta Degerstrom and Barb Edin will join up with that arch-Saggitarian Audrey Krogh to form an acid-rock band, the Poobahs, who will tour the various hot night spots in Finlayson, causing a riot during Krazy Days in 1994 when they will refuse to play "Sugar, Sugar" to a teeming mass of old ladies.

After this grand disaster, a thud in the third House of Sagitarrius will provoke Susan Beise and Linda Bloom to start a clinic for dented basketball players in beautiful downtown Twitchville, Tasmania. A thinning in the beltline of Pisces determines that the administrator of this clinic will be none other than our own Wayne Madsen. He will manage the convalescents in his spare time.

I see that developments in the entertainment field will be many and great, and the contributions of the class of '70 shall be widely known. The great soothsayer in Bruno has just informed me that one Diane Dracy will bring great fame to her home town when she forms "Diane Dracy and her Tassle Tossers," a precision dance group composed of Wendy Hammer in violet tights and yellow top, Nancy Olson dressed in a lucious raccoon coat, and Patty Pearson done up in a chartreuse straightjacket. They will also tour with Bill Tvedt and Vic the Wonder Bear.

A special bulletin! Only a goodly-sized crinkle in the chart of Cancer will save Diana Beavens from becoming the Phud County, Arkansas, weed inspector!

One year after this, Gene Klocke will develop a device which serves no useful purpose and make a fortune selling it on the streets of Askov, where he will start up an exclusive dealership for these useless contraptions, called Gene's Machines Incorporated. Good luck, Gene my boy!

The stars also say that Ed Nyquist, Brian Petersen, and Rick Storebo will become famous in the field of liver transplants, and will set up a world-renowned clinic behind the Askov Dump.

I also understand that because of the dawning of the Age of Aquarius, Don Degerstrom, Art Ellson, and Noel Jensen will turn into the three hairiest hippies in the history of hippies. Collectively, their hair will have a total length of 78.95 miles!

Well, friends, the future looks bright for the class of '70 in good old Askov High. We shall see how many of these fantastic predictions come true, but personally, I think they're pretty accurate. As the man on Bruno Mountain would say, "Time will tell."
Amen!

YOU ARE INVITED!

What? Class reunion.

To Janitors, Aids, Secretaries, Cooks, and Busdrivers:

Too many times, through the years, people faithfully undertake their jobs without any recognition. This year the senior class wishes to acknowledge the fact of how deeply we appreciate your assistance in giving us our education. Without your help our school could not keep running, and we sincerely appreciate your work and patience.

Thank you!

CONSTELLATION RECREATION

ACTIVITIES

The season started out on a high note with Askov winning the Early Bird All Comers meet at Lake Nakomis in Minneapolis. Next we traveled to Hibbing and, competing with the top teams in the region, we took 4th place. After that we traveled to Proctor and placed 5th. We then had our first home meet, taking the first three places. Then we journeyed to St. Croix Falls, Wisconsin. They had given us a tough time last year, but we clobbered them this time. Then we came to one of the biggest meets of the season: the Swain Invitational at Duluth where some of the top teams in the state were competing. We took 11th out of 20 teams. Next meet we traveled to Chisago Lakes, where we tried, with two of our best runners gone. Following that, we traveled to Two Harbors where we took 2nd place. It was one of our best meets. In the district meet, we easily overpowered Chisago Lakes, Hinckley, Finlayson, and Forest Lake to win the district. Then we came to one of our main goals of the season: placing in the region. But due to various injuries and illnesses and lack of depth, we fell back to 6th. However, we had two runners qualify for the state meet: Rick and Ade.

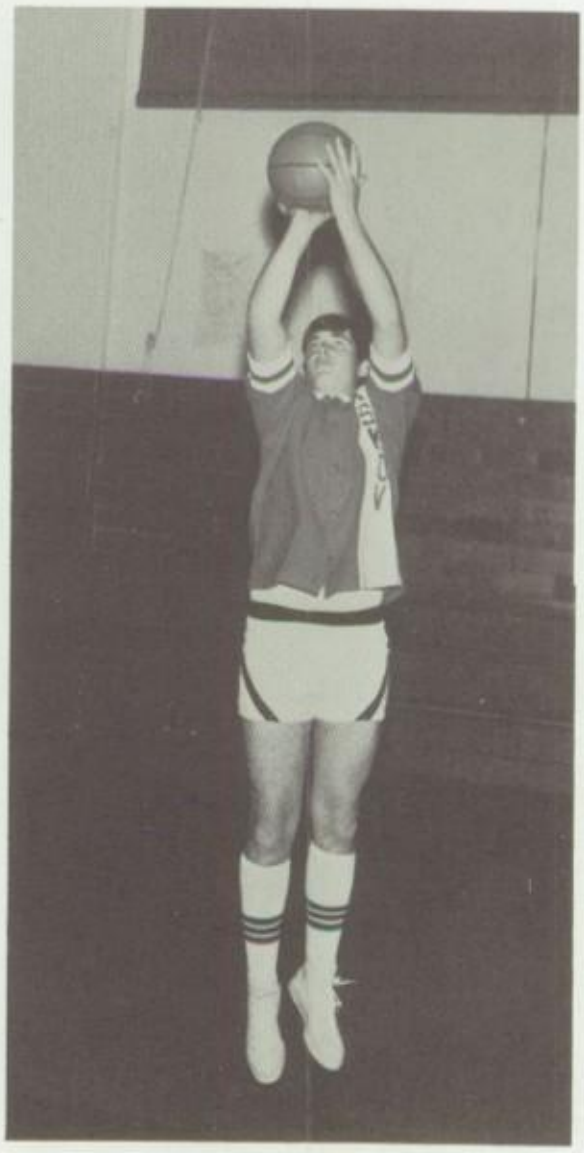
The 1969-70 basketball season at Askov High proved to be an exciting one. Fans showed lots of enthusiasm by the support they gave their team all through the season. Much determination was shown by the players and their coach.

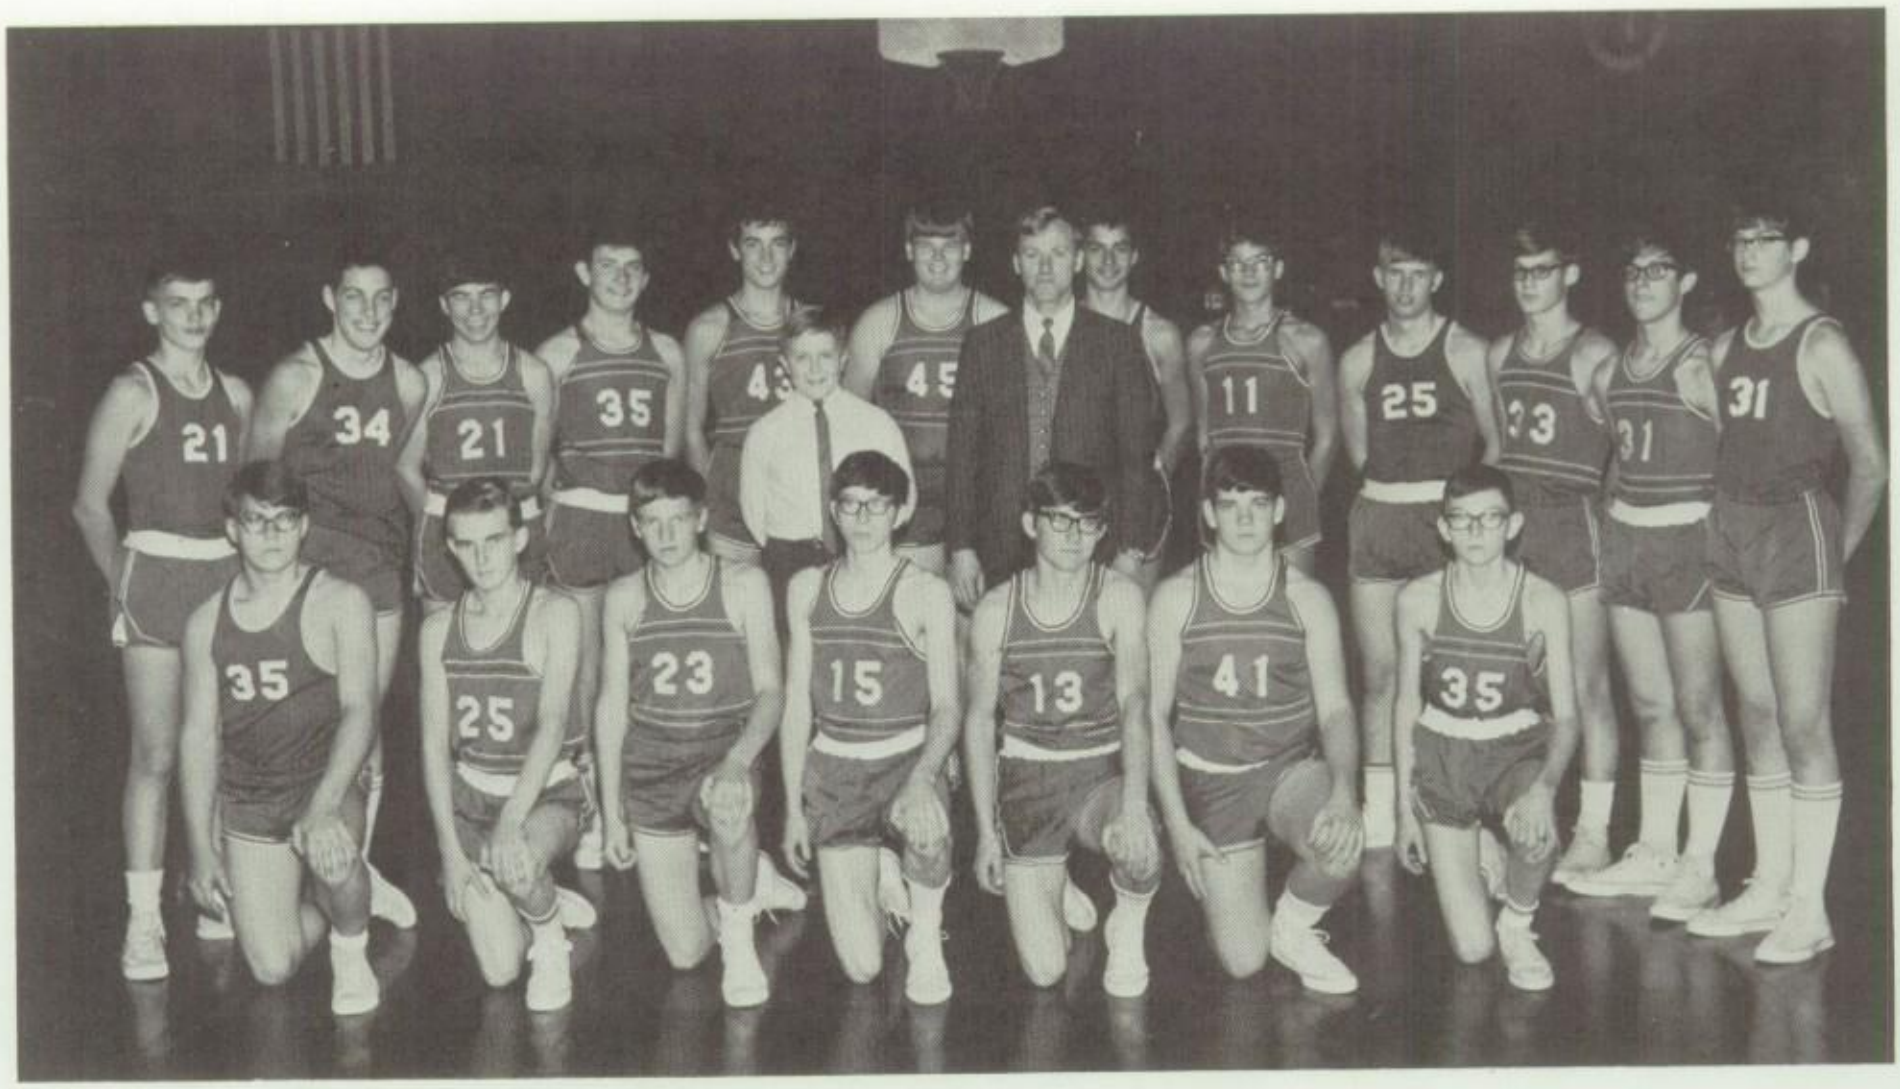
A Year of Promise, Poise and Power

Row 1: Wayne Madsen, Manager. Row 2: Bill Tvedt, Randy Ketchum, Tim Johnson, Scott Johnson, Jim Degerstrom, Kevin Jessen.

Co-Captain: Bill Tvedt



It's been a long time since Askov has placed as high in the conference, and we are proud of our team. Best of luck in the 1970-71 season!

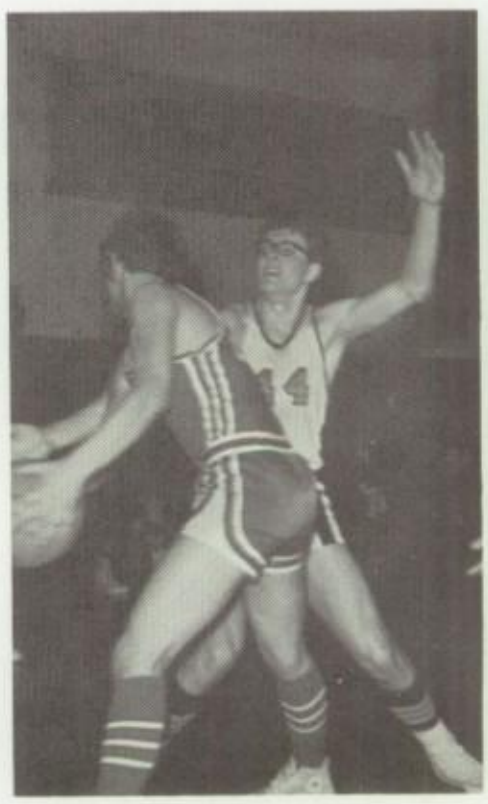


First Row: Mark Sagvold, Dennis Molgaard, Ted Mickelson, Tim Nelson, Wayne Monette, Charles Ketchum, Merlin Keyport, Manager, Lyle Madsen, Coach, Mr. Dahlberg. Second Row: Everett Nelson, Ron Wilmarth, Calvin Slama, Randy Madsen, David Tvedt, Russell Krogstad, Ed Mlaskac, Jerry Koecher, Ron Kenowski, Dave Rote, Ray Bloom, Ovid Jensen.

B-Team

Our B-team fashioned one of the best winning seasons that Askov has had in recent years. Great depth, high morale, lots of determination, and lots of running were all the key factors contributing to our success. Although we learned to win, Mr. Dahlberg taught us how to win. We learned sportsmanship and respect, for our rivals as well as for each other. We played together as a unit, with any one player capable of being our spark plug for any game. We all benefited greatly from this past season together. We learned to never give up. Sometimes we struggled, but somehow we usually came through. Our achievements are due, mainly, to our thoughtful and devoted coach, Mr. Dahlberg. Words can't express our deep admiration for him. We would also like to voice our gratitude to Mr. Force who took the time to coach us in Mr. Dahlberg's absence.

Full of Determination



C-Team

First Row: Clarence Eckley, Robert Birkholm, Larry Johnsen, Rick Anderson, Doug Johnsen, Greg Kenowski. Second Row: Jeff Nelson, Jim Klein, Lyle Madsen, Jem Clausen, Rick Degerstrom, Alan Klein. Third Row: Jeff Degerstrom, Kevin Nelson, Lee Johnsen, Keith Bresin, Randy Kenowski, Bob Leach, Mr. Peterson

Great Promise

Even though we lost more than half our games, we believe that there is great promise, with potential talent within the younger members of the team. The teams we beat, we beat solidly, and the teams we lost to were very close contests. We would like to express our gratitude to Mr. Peterson, who coached us during the season. He has taught us leadership and sportsmanship in winning as well as in losing.

Memorial

We, the students of Askov, would like to express our appreciation for the new backboards we received this year. They were given by Bob and Violet Johnsen as a memorial for their son, Terry, a 1968 graduate of A.H.S.

The Danes of Askov High School are expecting a better-than-average baseball season for 1970. Although the past few years have not been as productive as they should have been, the aspects are looking up for this year. There are five seniors on the team who have been regulars since their sophomore year; they are: John Zebrasky, Tim Johnson, Bill Tvedt, Wayne Madsen and Terry Nelson. With the addition of quite a few juniors and sophmores there should be a good season coming up.

Outstanding Teenagers Boy's and Girl's County

COUNTY

A very interesting day was provided for those who went to Pine City for County Day. We went through the court house, met many of the county officials, and learned some of the basics of how the county government is run. At noon we were served a delicious lunch, and then we went to the Pine City Vocational-Technical School. There we toured the entire school and visited some of the classes offered. All in all, everyone had a very enjoyable day.

Senior FHA

This year the senior FHA decided to be very active and do a little more than in other years by collecting assorted items for the Moose Lake State Hospital, which were greatly appreciated. We made wall hangings for the hospital, too.

Our main recreational activity was the annual slumber party in the gym. The highlight of this was a Valentine party by the junior girls.

Another original idea was for a pickle sale. We also made place cards for the Sandstone Hospital and sold cookbooks.

We sent delegates to the FHA conventions in Cambridge and St. Paul.

Spelling Bee

Each year one student from the 7th or 8th grade is chosen to represent Askov High School at the county spelling bee. The students are chosen upon the basis of spelling test results. Our winner this year is Cheryl Lund. She will attend the bee in Pine City on March 13. The winner at county advances to state, and the state winner advances to the Washington, D.C. finals.
